

New Product Introduction 2020

Bath

MOEN[®]

Available Now

COLINET™ BATH SUITE

Today’s homeowners place great emphasis on a coordinated look with highly distinctive design throughout the room. Moen’s new premium bath suite, Colinet, provides it all, from faucets to an impressive array of accessories and lighting.

This highly distinctive suite provides a wide décor style reach depending on its finish.

Colinet will add to our traditional portfolio with a unique collection that complements today’s lifestyle.

Features & Benefits

Colinet brings highly distinctive style options to elevate the everyday water experience.

Wide décor style reach

- Tailored traditional... modern glamour ... industrial chic ... all in one striking faucet. Colinet’s uniquely versatile design blends elegant, contemporary elements with beautiful details to flow seamlessly with any desired style aesthetic.

Distinctive design elements

- Its name is inspired by “colonnette,” which is a small, slender column in architectural design.

- In chrome and brushed nickel, Colinet is tailored traditional. In brushed gold, it’s the epitome of glamour. In matte black, it defines industrial chic.

Lever Handle

Cross Handle

- Different handle options to thrill a design-oriented consumer

Features & Benefits

M-CORE™ Valve System

- A luxury spa experience featuring the M-CORE™ Valve System. This valve system saves installers time and money and simplifies the selling process for customers while giving consumers the flexibility to make function and style choices even after the valves have been plumbed.
- Normally, most shower arms are only 8" in length. Colinet has a perfectly matching 16" square bent tube shower arm and 10" rainshower to create the luxury spa experience your clients crave.

Decorative Versatility

- The lighting products in Colinet distinguish themselves from standard bath lighting with closed globe glamour. The two globe light can be positioned horizontally or vertically for added versatility.

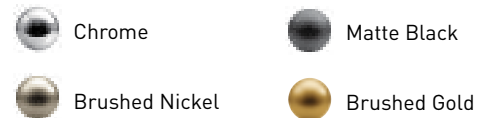

- The introduction of a 4" drawer pull adds variety to our portfolio

Additional Platforms

- One-Handle Lav Faucet (Lever Handle Only)
- Widespread Faucet (Lever & Cross Handle Option)
- Wallmount Faucet (Lever & Cross Handle Option)
- Two-Handle and Two-Handle with Handshower Roman Tub Trim (Lever & Cross Handle Option)
- Freestanding Tub Filler (Lever Handle Only)
- Seamless PosiTemp®/ ExactTemp®/ M-CORE™ Showering Options
- Diverting and Non-Diverting Tub Spout
- Matching accessories including 18" and 24" Towel Bars, Towel Ring, Tank Lever, Double Robe Hook, Pivoting Paper Holder, Lighting and Drawer Knobs and Pulls

M-CORE™ VALVE SYSTEM

Moen® M-CORE™ Valve System is Moen's new valve system designed with feedback from pro installers and Moen's desire to make their workday a little easier.

It gives consumers more freedom in terms of showering functionality and style in their new construction or remodel projects. M-CORE™ valves with new 3 Series trim offer pressure-balancing capabilities as well as volume control. Mixing valve cartridges are included in 3 Series trim and a wide range of style and finish options are available.

Easy install, countless possibilities. This is shower design – on your time.

Features & Benefits

The M-CORE™ valve system is easier to understand and sell. It features broader trim style and finish offerings, which include all of Moen's 2nd Upgrade and Premium Suites. M-CORE™ valves provide flexibility to change functionality, trim style or finish at any stage of the project.

- The intuitive M-CORE™ numbering methodology will make it easier to memorize numbers in the showroom – numbers are now related to the functionality of the valve. Previously, they had no relation to the valve functionality.
- The M-CORE™ valve system provides plumber-preferred installation features and a wider selection of valves and plumbing connections they require. These installation improvements and valve options save installers time and money.

By using M-CORE™, clients:

- Have additional transfer valve functionality with more trim design choices than ever before
- Have improved style of trim without gaps, visible screws and stop tube, for a more streamlined look that's easier to clean
- Can make their trim decision after the valve installation, allowing them to take more time with their style selections
- Now have perfectly matching diverter and temperature handles for a visually appealing, cohesive look across all bath trim

Additional Details

What's Being Introduced

- M-Core™ Mixing Valves and 3 Series Trim- Full Flow and EP
- M-Core™ with Transfer (Stacked) Valves and 3 Series Trim
- M-Core™ Transfer Valves and Trim
- PLUS, additional Second Upgrade and Premium Options:
- 3 Series Mixing Trim in Rizon® and Via®
- 3 Series Stacked Trim in Via, Voss™, 90°®, Arris®, Doux™, Flara® and Weymouth®

What's Going Away

- All Moentrol® Mixing Valves and Trim
- All Moentrol® with Transfer (Stacked) Valves and Trim
- All Transfer Valves and Trim

What's Staying the Same

- Moentrol® Valve-Only Trim for service/warranty in these styles: Kingsley®, Align®, Voss
- Commercial M-DURA™ Three-Function Transfer Valve/Trim and 3360 Valve

Pricing Structure

M-CORE™ 3 Series Trim will include the cartridge

- Different pricing mix between Trim and Valve vs. Moentrol® today

Net Pricing for M-CORE™ Trim and Valves combined, will equal Moentrol®

- Mix will be weighted heavier on the trim side due to the inclusion of the cartridge

List Pricing for M-CORE™ Trim and Valve will differ from Moentrol® in Premium price points, but remain the same in 2nd Upgrade

- M-CORE™ Premium Trim and Valve combined will be higher than Moentrol® Trim and Valve combined, due to the multiplier and higher list price associated with the trim

Pricing Example

	M-CORE™ 3 SERIES	MOENTROL®	DIFF	
PREMIUM - 90 DEGREE	Trim List Price	\$349.20	\$204.35	
	Valve List Price	\$60.00	\$180.20	
	TOTAL LIST	\$409.20	\$384.55	\$24.65
	Trim List Price	\$146.67	\$85.82	
	Valve List Price	\$30.37	\$91.22	
	TOTAL LIST	\$177.04	\$177.04	\$0

NEBIA BY MOEN™

Moen® has established an exciting partnership with Nebia, a company whose mission is to transform how people interact with water, delivering innovative products that people love and that are better for the planet.

Stepping into the shower is one of the few sacred and disconnected times we have to ourselves each day. Not only does Nebia by Moen deliver a unique spa-like experience, but it is also a shower that makes you feel good all while conserving one of earth's most precious resources. Water conservation will rise to the top of global economic issues within a decade, and in 15 years, the U.S. could face a water shortage crisis.

Meticulously engineered for optimal warmth and body coverage, Nebia by Moen™ offers a superior shower experience through atomization, the process of breaking water up into tiny droplets. Atomization creates the sensation of more water while using up to 45% less. Organic forms and soft curves nod to Scandinavian design and warm up modern styling in this rainshower, handshower, adjustable slider and magnetic dock combination.

Features & Benefits

- Twice the coverage using almost half the water when compared to a standard 8" showerhead under EPA WaterSense® testing guidelines for spray coverage
- Patented spray technology creates the sensation of more water, while actually using 45% less when compared to standard 8" Moen 2.5 gpm showerhead
- Built-in pressure regulator ensures consistent experience
- Guided, easy installation for an instant upgrade, with no drilling behind the wall because it can use existing plumbing/valve
- Main wall bracket is easy to remove from wall for cleaning filter
- Compatible with all Moen valves - trim and valve sold separately
- WaterSense labeled 

Handshower and Magnetic Dock

- The handshower delivers additional warmth, rinsing and body coverage when paired with the Nebia by Moen rainshower. Use as a spa-like body spray when docked to the wall, or remove from the magnetic dock to direct water right where you need it
- The handshower features a powerful magnetic dock that can be installed at the homeowner's desired height with a permanent adhesive or a traditional bracketing system
- The magnetic dock has ball and socket adjustable positioning
- Handshower includes on/off switch

Rainshower

- Rainshower tilts up and down
- An adjustable slider allows users to move the rainshower up or down based on their height and water warmth and body coverage preferences
- Sliding arm for 17" of height range
- At 7.9" in diameter, the rainshower provides the coverage of up to a 20" showerhead

Rainshower and Handshower Combo

- Includes the features listed above
- Provides a full spa-like experience

Magnetic Dock

- Place additional magnetic docks in shower for different user preferences

Easy Installation

- By removing existing showerhead/shower arm and retrofitting to existing plumbing, there is no need to drill behind the wall
- Complete universal install kit included

Magnetix™ Expansion

A showerhead that clicks with your lifestyle – that’s Magnetix™. The innovative magnetic-docking showerhead allows you to easily switch between a traditional wall-mounted shower and handshower by lightly pulling off the sprayhead.

Simply snap it back into the magnetic dock when you’re done. Plus, with six sprayhead options, Magnetix™ makes it easy to create a personalized at-home spa retreat.

To meet demand for this popular product, Moen® has added a new finish and remote docking accessory to the Magnetix™ product suite. We’re reintroducing you to the amazing features of this product.

Magnetix™ Six-Function Eco-Performance Handheld Shower

- Six-function 5.5" diameter sprayhead: this eco performance showerhead conserves water without sacrificing performance
- Push-button handshower
- Always docks facing forward to avoid exterior splashing outside your shower
- Matching finish on magnetic receptor
- Kink-free metal hose with complementary finish
- Metal shower ball
- Completes your look and ties it together seamlessly
- Meets EPA WaterSense® criteria
- Limited lifetime warranty

AVAILABLE FINISHES

-  Chrome
-  Brushed Nickel
-  Matte Black
-  Oil Rubbed Bronze

Magnetix™ Handheld Remote Dock

- Additional docking where you need it most
- Great value add sale for Magnetix™ 3662EP Series
- Great for kids, seated shower takers and washing pets
- Permanent mounting with hardware and 3M adhesive options
- Limited lifetime warranty

AVAILABLE FINISHES

-  Chrome
-  Brushed Nickel
-  Matte Black
