MOEN®

Available Now

SINEMA™ KITCHEN SUITE

Moen® is introducing Sinema – a new line of premium pulldowns, expanding our styles and platform breadth. Uniquely occupying the transitional space with its exceptional detailing and elevated finish, Sinema will fill a gap in our current portfolio and help you win in the showroom space. Customers will recognize Moen as the leader for best-in-class style and design, which are exemplified by Sinema's luxurious curves, elegant height and forms that are distinctly Hollywood high style.

With Sinema, Hollywood high style elevates transitional design.

Inspired by art deco elements, Sinema merges traditional and modern style cues to exude graceful sophistication. It also reimagines the use of finishes in the kitchen.

Features & Benefits

- Power Boost™ featured on Pulldown and Pre-Rinse platforms
- Unique style shaping in receptor and wand
- Extended faucet height
- Handle customization: art deco two-tone handle detail and alternate transitional (finish match) handle option included in box for One-Handle Pulldown, One-Handle Pre-Rinse Pulldown, and Bar Faucets
- 15" Bar
- 18" Pulldown
- 23" Pre-Rinse

SLEEK™ KITCHEN SUITE EXPANSION

With a clean, cylindrical design, Sleek is a style that has resonated within the market and become a top performer for Moen®. To further meet customers' desire for matching styles, Moen is expanding collections that are resonating in the market. Sleek's popularity provides an ideal opportunity to gain additional sales through platform expansion and by including highly competitive, innovative features.

Features & Benefits

- Sleek has broad appeal among those who prefer a softer design versus the angular lines and geometric shapes of most modern options
- Sleek is supported by highly competitive, innovative features including Power Boost™, Reflex® and Duralock®
- One-Handle Pulldown Bar height: 14.50"
- One-Handle Pulldown height: 15.56"
- One-Handle Pre-Rinse Pulldown height: 22.50"
- Sleek meets ADA requirements

DISPOSALS

Since launching in 2016, Moen's full line of disposals has received positive reviews. Moen® garbage disposals are built for powerful performance with proven technology, a streamlined design, high-quality features and the promise of the Moen brand.

We are committed to building on our success by changing the way the category is shopped, removing barriers for consumers who don't own a disposal and providing the highest dependability in the industry.

More than ever, customers and consumers can count on Moen above — and below — the sink.

Moen Wholesale Garbage Disposal Portfolio

Moen offers a full line of garbage disposals to power your daily grind. Moen's Limited Warranty with professional home replacement service guarantees peace of mind that you will receive the same level of customer service for garbage disposals that Moen provides for the rest of its products.

Homeowner Benefits

- **Universal Xpress Mount:** fits all Moen and most existing 3-bolt mounting assemblies. The compact design is lightweight for easier installation and frees up valuable space under the sink.
- **Vortex™ Motor:** permanent magnet motor – similar to many power tools – immediately operates at full speed. This results in finely ground particles and helps reduce jamming across each level of horsepower.
- **SoundSHIELD™:** designed to deaden the sound levels of the powerful disposal motor at work.
- **Pre-Installed Power Cord:** Moen garbage disposals have a pre-installed power cord, which saves installation steps and money over other models where cord must be purchased separately. Cord removes easily for optional hardwiring.

Lighted Disposal

Moen's introducing the first-ever motion-activated lighted garbage disposal. Equipped with movement-sensing technology to illuminate storage space under the kitchen sink when the cupboard door is opened and Fast Track™ technology for an improved installation experience.

Features & Benefits

- Motion Activated Lighting
- Battery Operated
- 6 LED lights
- Positionable sensor
- FAST TRACK™ Enhanced Installation
